

Magnetic Mounting Kit for ScreenBeam 1xxx-Series Receiver

Applicable for the following SKUs:

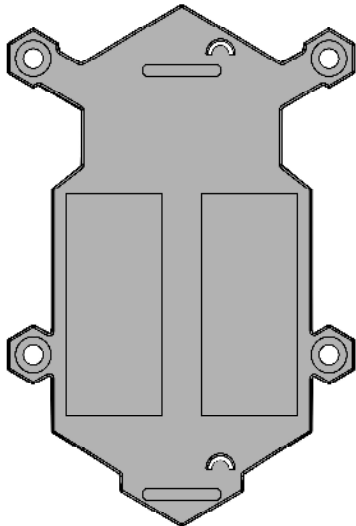

- SBWD1000EDU
- SBWD1000EDUG2
- SBWD1100P
- SBWD1100F

After completing the following steps, you will be able to attach ScreenBeam receiver to most metal surfaces magnetically.

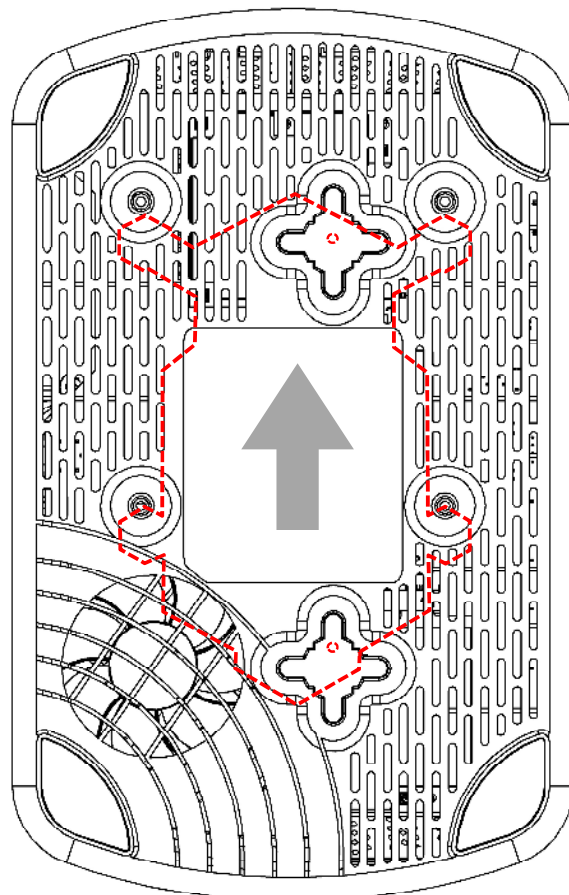

Follow the steps below to install the magnetic mounting module:

1. Place the magnetic mounting module onto the bottom of the ScreenBeam receiver and align the locking pins with the mounting holes on the bottom.
2. Slide the magnetic mounting module to lock it in position, and make sure the four screw holes of the module align well with the screw holes of the receiver.

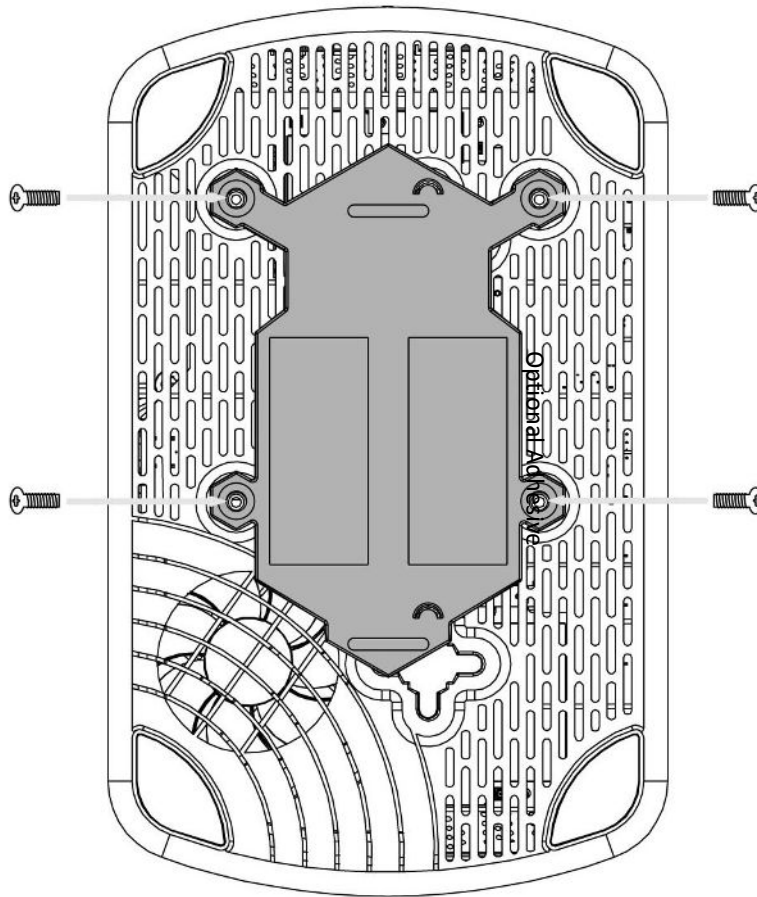

Magnetic mounting module (top side up)

ScreenBeam receiver (bottom side up)

3. Fasten the magnetic mounting module to the receiver with the provided screws.
4. Attach the receiver with the magnetic mounting module to a flat metallic surface, and assure the receiver is magnetized to the surface.

SCREW SPEC:KM4*10mm
